Teknologi er vigtigt

Vi kan lige så godt bare  
overgive os til teknologien

(nej)

For 100.000 år siden...

# Politisk/økonomisk videnshistorie

- Demokratisering
- Afmonopolisering
- Teknologisering

1/3 af hver årgang får en  
universitetsuddannelse

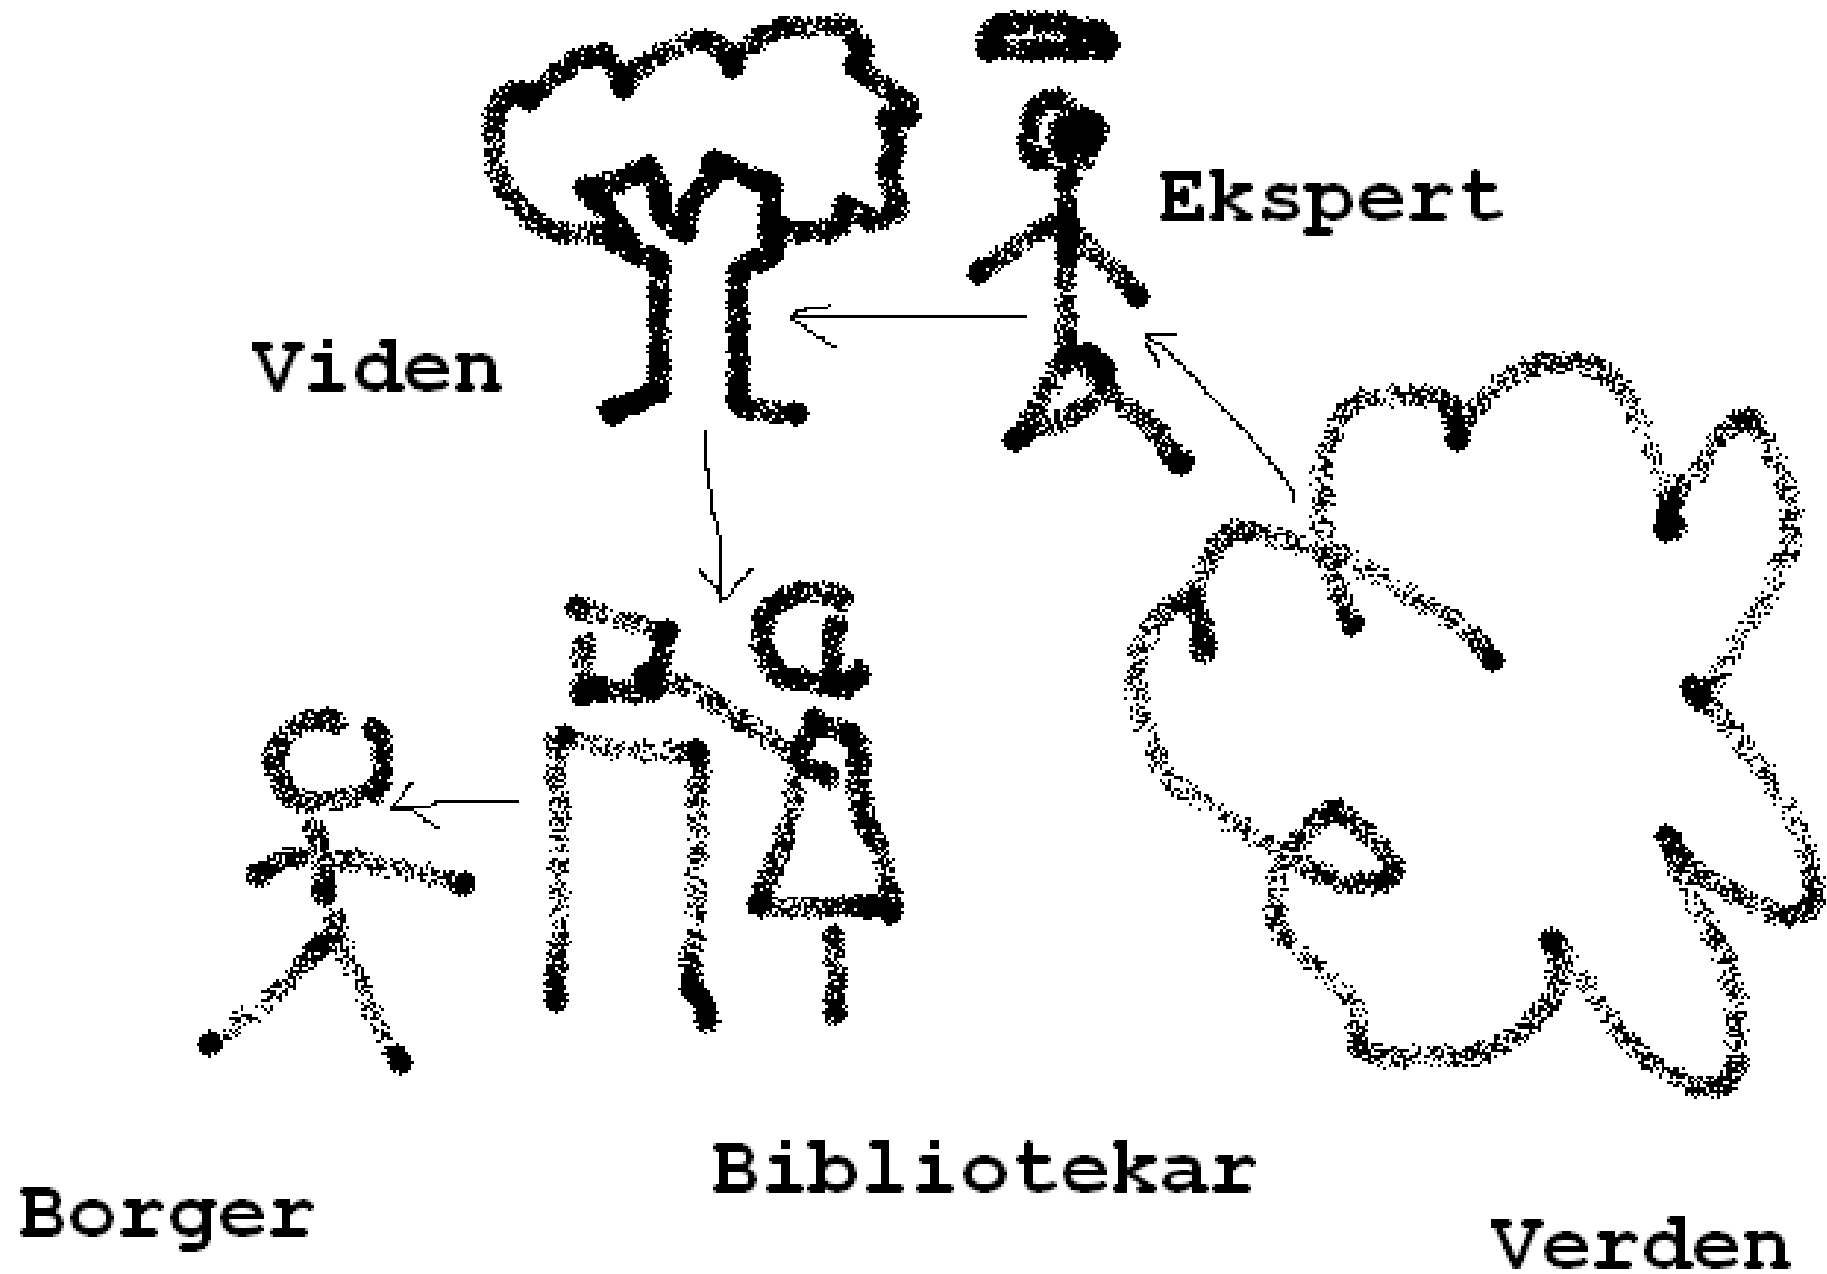

# Teknologi giver

- Billig adgang til at konsumere viden
- Billig adgang til at producere viden
- Billig adgang til at distribuere viden

# Bibliotekets problem:

Det er opfundet dengang viden  
var sjælden og dyr

yl ought to buy opera as a counter to g android. at €271 mill they are a steal. i doubt yl will come through, though, and predict nokia or ericsson.

it does sound plausible - Nokia already went WebKit though

i guess it really is time to finish that radar post: "it's the browser, stupid"

Why do you need Opera when there is WebKit?

[@aehn](#): back button!

[@aehn](#), the simple answer is that opera is on so many more phones, both in real and in potential numbers.

Also, other people/players have control over the direction of WebKit

 har du data der backer den op?

 Vi arbejder på sagen herovre: <http://hofman.jaiku.com/presence/15463563>  
 - observationen er "bogsalget går godt, men udlånet går dårligt" grafen her er en hurtig teori om hvorfor.  
 Man skulle tro at bibliotekerne her i dag, 24. oktober, er underforsynet med Stieg Larsson krimier. At de er underforsynede med outliers i halen må være en naturlov: Amazon har 2 millioner bøger til salg - det typiske danske bibliotek har måske 500.000 titler på lager. [Edit](#)

 En opfølger: Side 13 i den her <http://www.bs.dk/content.aspx?itemguid={4B41EC3A-6F69-4071-94E1-399E9f>  
 - viser et stagnerende boglån, der ikke hænger sammen med udviklingen i bog som f.eks. beskrevet her: [http://www.freundlich.dk/regnskab/Bogbarometer\\_2007\\_1.kvt.pdf](http://www.freundlich.dk/regnskab/Bogbarometer_2007_1.kvt.pdf) [Edit](#)

# Bibliotekets dilemma

Ordet er bibliotekets DNA

Hvordan planter man ord-DNA  
om i ny teknologi?

Teknologien flytter ikke kulturen  
lige så hurtigt som man tror

-men den forældes endnu  
hurtigere end man tror

# Gør

- Omfavn det hyperkomplekse samfund
- Gør ordet tilgængeligt
- Brug bibliotekets fordel: Kulturarven
- Brug brugerne

# Gør ikke

- Overkøb nye formater
- Start et teknologikapløb med Google
- Lad som om emnekataloget er nyttigt endnu
